

SIMPLY RELIABLE ENTERPRISE DATA STORAGE

WE HOLD THE WORLD'S RECORDS

## QUALSTAR CORPORATION

Designing and manufacturing *Simply Reliable*  
Automated Tape Library Systems

Customer satisfaction through technical innovation  
and a commitment to quality for over 26 years

### TECHNOLOGY VISION

Established in 1984, Qualstar is a pioneer in the data storage industry. We have consistently demonstrated a visionary approach to technology and to the business of delivering technology to our customers in useful, cost-effective products. In 1994 we introduced the first in an ongoing series of automated tape library families.

### MARKET BREADTH

Developed for the exploding backup, archival and content storage markets, the TLS and RLS library families rapidly gained market acceptance. Qualstar presently manufactures 20 models that span the broadest range of capacities and formats available in the industry. We manufacture libraries for the rackmount, free-standing and enterprise markets.

### INNOVATIVE DESIGN

With XLS Qualstar reaffirms its position at the forefront of a rapidly changing industry through consistent design innovation. Sophisticated, highly reliable robotic designs yield both performance and low cost, resulting from an underlying philosophy to provide customers with products that deliver maximum value. At Qualstar, all of our products are *Simply Reliable*, by design.

XLS patented Compass Architecture™

57,000 square feet of R&D, Engineering and Manufacturing space.

*Simply Reliable* design insures reliability, high performance and maximum value.

Design innovation and testing deliver libraries with years of dependable operation.

## QUALSTAR TAPE LIBRARY SYSTEMS

### **AUTOMATED TAPE LIBRARIES FOR ENTERPRISE DATA STORAGE**

Qualstar's Tape Library Families economically and reliably automate backup, archival storage and critical data security applications. Each family provides all of the features that have made us an industry leader. X-Link and Q-Link remote library managers, built-in Logical Library partitioning and innovative designs make Qualstar's *Simply Reliable* libraries the preferred choice of IT professionals worldwide.

### **TLS-SERIES TAPE LIBRARIES**

Offering unbeatable reliability, performance and value for over 15 years, our TLS-Series Tape Library Family incorporates several models spanning capacities from 4.4 terabytes to 198 terabytes. Individual models house up to four LTO tape drives, delivering data transfer rates exceeding four terabytes per hour, and packing over 50 terabytes per square foot of valuable IT floor space.

### **RLS RACKMOUNT TAPE LIBRARIES**

The RLS-Series Automated Tape Libraries are designed for users requiring rackmountable solutions. The RLS-Series supports LTO cartridge tape formats in compact 5U-high modules. Popular options include Capacity-On-Demand to allow users to buy just the storage they need when they need it. Q-Link, our web-based remote library manager, is built into all units. Nine models deliver capacities exceeding 132 terabytes.

### **XLS TAPE LIBRARIES**

XLS is a highly modular enterprise library system that delivers high storage density, flexibility and scalability, coupled with our proven record of reliability and value. XLS features patented Compass Architecture™, an advanced robotics design that yields superior reliability and density, and X-Link, an advanced single-view worldwide management interface. XLS models start at 165 slots and grow in easy, cost-effective increments to over 10,000 slots. Cartridge slots and tape drives are readily added or reconfigured to adapt to changing storage requirements.
